

EZ-Up Direct

Your best solution for
economical growing space

Easy to install

- Lower operating cost , no exhaust fans required
- Plants can be hardened off by opening the roof
- More uniform temperature throughout the greenhouse
- Fabricated with low-maintenance galvanized steel frame and gutters
- Glazed with a wide choice of economical materials

The Ludy EZ-UP Direct has been developed to benefit growers as well as retailers by utilizing features that work to save you money and improve plant quality.

You can expect lower operating costs because less equipment is required. No exhaust fans will be necessary since the roof can be opened to receive maximum light and release excess heat.

You can expect lower operating costs because less equipment is required. No exhaust fans will be necessary since the roof can be opened to receive maximum light and release excess heat.

Combine the open roof advantage with side vents in a multitude of combinations to achieve the versatility that growers and retailers need to tailor each structure to their own individual needs.

For cold weather applications, light can reach plants through the typical glazing options, 8mm polycarbonate, corrugated polycarbonate, double layer polyethylene, glass, or 8 mm acrylic structured sheet.

Structural soundness is achieved using 4" square pre-galvanized, rust resistant steel. Trusses utilize 2" square, pre-galvanized, rust-resistant steel, factory welded parallel chord truss design,

with ridge purlin of 2" square also made from pre-galvanized, rust resistant steel.

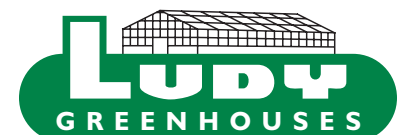

All the standard bracing is also included, roof wind X-bracing, sidewall X-bracing, gable and knee bracing.

The Ludy EZ-UP Direct is available in widths of 24 feet or 36 feet with standard sidewall heights of 10, 12, or 14 feet. Higher sidewalls are available upon request. Length is unlimited based on any multiple of the standard 10 or 12 foot bays.

Gutters are 10 inches wide, manufactured from high strength steel and sealed at each post using gutter splice. Various gutter extension lengths are available along with down spout connectors and drip channels.

The Ludy top closure advantage is clear. You achieve uniform temperature, receive maximum light potential, reduce your operating cost, and gain increased productivity.

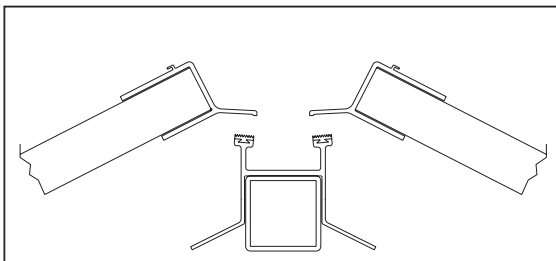

The Ludy EZ-UP Direct is engineered to work for you, combining flexible features and outstanding value. Call Ludy at 1.800.255.LUDY (5839) for a consultation or quotation today.

Roof opens to allow maximum light and outside air into the greenhouse. This helps you have more uniform temperature throughout the greenhouse.

The Ez-Up Direct Ridge Advantage

Hinge Point

Wide, Sturdy Gutters

Construction

- All structural components are pre-galvanized, rust-resistant steel.
- Post: 4" square pre-galvanized, rust-resistant steel
- Trusses: 2" square pre-galvanized, rust-resistant steel; factory welded parallel chord truss design.
- Ridge Purlin: 2" square pre-galvanized, rust-resistant steel
- Bracing: roof wind X-bracing, sidewall X-bracing, gable bracing and knee bracing included

Gutters

- 10 inch wide, made with high strength steel, sealed at each post using gutter splice
- Various extension lengths are available along with down spout connector and drip channels

Sizes

- Widths: 24 and 36 feet (7.32 and 10.97 m)
- Lengths: standard 10 or 12 foot bays; full length can be any multiple of chosen bay size
- Sidewall: standard 10, 12, or 14 feet; higher walls available

Glazing options

- 8mm polycarbonate structured sheet in 4 or 6 feet bar spacing
- Corrugated polycarbonate
- Double-layer polyethylene (using Ludy Lock Poly system)
- Glass (annealed, tempered or laminated)
- 8mm acrylic structured sheet
