# Research & Educational Greenhouses

Research and Educational

## SL Series

An unprecedented variety of options allow you to virtually design your own house.

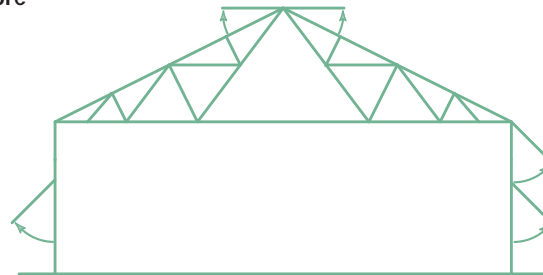

- All structural components are top-quality aluminum.
- Standard widths: 18, 25, 32, 42 and 50 ft. (Special widths available) (5.49, 7.62, 9.75, 12.8 and 15.25 m)
- Glazing options: glass, acrylic, polycarbonate or metal in structured sheet or corrugated configuration

## RS II

Built to meet your requirements, but you don't pay for more greenhouse than you need.

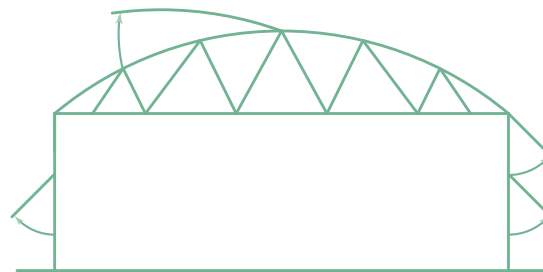

- All structural components are pre-galvanized rust-resistant steel. Or upgrade to hot-dipped galvanizing after fabrication.
- Standard widths: 20.5, 25, 30, 35.5 and 41.5 ft. (Special widths available) (6.25, 7.62, 9.14, 10.82 and 12.65 m)
- Glazing options: glass, acrylic, polycarbonate or metal in structured sheet or corrugated configuration, shade cloth

## Patriot II

Ideal for a lower cost greenhouse that can meet local building codes.

- All structural components are pre-galvanized rust-resistant steel. Or upgrade to hot-dipped galvanizing after fabrication.
- Standard widths: 20.5, 22, 30 and 36 ft. (Special widths available) (6.25, 6.7, 9.14 and 10.97 m)
- Glazing options: single or double layered polyethylene, acrylic, polycarbonate or metal in structured sheet or corrugated configuration, shade cloth

Let Us Design Yours

## 🏠 Adaptable

## 🏠 Functional

## 🏠 Versatile

Educational greenhouses require sturdy, functional structures with adaptable spaces that can change with curriculum, growing trends or aesthetic preference. Research greenhouses should provide a controlled climate that can be easily maintained yet be versatile enough to modify as conditions dictate. The benefit of a greenhouse in education, propagation study, or as an addition to a public space, is easy to recognize.

If your requirements are basic growing houses or state of the art - cutting edge technology, we can supply information to aid you from the planning stages through building completion. Ludy has models that fit most any budget and the adaptability to help you achieve your goal. Our knowledgeable sales staff is ready to help you determine the design that best suits your needs.

Ludy Greenhouse Manufacturing can recommend and provide the appropriate structure, shade, irrigation, ventilation and controls to get the job done. With more than 50 years of experience, in-house engineering, structural durability, maintenance and upgrade capability; metal, glazing and equipment choices to suit your application, Ludy is the best choice you can make. If your vision and needs go further than glass walls and a concrete floor, let us design yours.
